

PRIMUS

OUTDOOR

Makes A Difference

113

www.primus.se

The big adventure.

Imagine you are on your way up to the peak of a mountain. The air is clear and the sun's rays blind your eyes. A light wind is whirling snow about in small swirls. With a frosted beard and rosy cheeks, you take out your light OmniFuel stove from your backpack. You light it and feel its heat radiate. Your thoughts are genuine and your spirit is at peace. Soon, it's time to eat. Soon, you're full and satisfied. Soon, the journey will continue. The adventure has just begun.

Primus was the first on Mount Everest.

Many well-known adventurers have pushed themselves through deserts, along rivers, and up the world's highest peaks with Primus products in their packs. Sir Edmund Hillary and Tenzing Norgay were the first in the world to climb Mount Everest in 1953. A stove from Primus was along for the expedition.

We would rather test a valve one time too many.

Regardless of whether you are hiking, fishing, out on a long desert expedition or climbing a snowy peak, food and water are important parts of the experience. A stove just cannot break at 4,000 metres! This is why we have spent the last 113 years developing stoves and lanterns that make life outdoors as simple and pleasurable as possible. Regardless of altitude, wind strength or temperature.

All of our products are carefully thought-out and every individual part is tested thousands of times, both in the laboratory and in the field. (It's almost impossible to wear-out our valves.) We try to transfer features that function well on one product, such as piezo igniters, foldaway legs and gripping pot supports, over to other products as well. Being of the highest quality, simple to use and easy to carry are characteristics common to all of Primus' products.

PRIMUS OmniFuel™

PRIMUS EasyLight™

Variable light output.
Up to 80 W.

High light output.
LP gas provides a great deal of light and heat over a long time.

Silent burner.
Patented burner is virtually silent.

Piezo igniter.
No need for matches.

Stringently tested valves.
All of our valves are put through long-term testing and are almost impossible to wear-out.

All parts subject to wear are made of metal.
For maximum strength and durability.

PRIMUS MicronStove™

Foldaway pot supports.
Convert the stove to a minimal unit.

96 g!
Just try to find a lighter stove with built-in ignition!

Burner with unique wind stability.
Provides short boiling time even in a strong wind.

Easy Trigger™.
Our effective patented ignition system that replaces matches.

All parts subject to wear are made of stainless steel.
For maximum strength and durability.

№1!

PRIMUS OmniFuel™

Our most advanced multi-fuel stove.

OmniFuel is a good example of making a great product even better. The stove, which is a refinement of the MultiFuel stove, uses very advanced materials to offer advanced functionality. OmniFuel is designed to handle demanding conditions, extreme altitudes and both high and low temperatures. A new and even faster preheating system saves both fuel and time. OmniFuel is a sturdy stove that works with LP gas, gasoline/petrol, diesel and kerosene – even aviation fuel. Using the separate control knob, the flame can be adjusted to provide the exact heat required. The ErgoPump, the multi-tool with an integrated cleaning pin and the windscreen are included.

PRIMUS ErgoPump™

Light and durable fuel pump.

- Light and robust construction
- Self-bleeding of fuel line and stove
- Ergonomic pump angle
- Grip-friendly pumping button
- Fits all PRIMUS expedition stoves

PRIMUS MultiFuel

For different fuels and temperatures.

MultiFuel is our first and most highly acclaimed multi-fuel stove. This is the stove for those of you who want a choice between LP gas, gasoline/petrol and kerosene. A sturdy stove that works in all countries and at all temperatures. It has the same smart leg design, gripping pot supports and efficient fuel drainage as our other expedition stoves. MultiFuel also has a preheating coil for fast heating. The ErgoPump, multi-tool and windscreen are included.

PRIMUS Gravity™

Our new stable spider stoves.

Gravity and Gravity MF are our newest spider stoves. Low centre of gravity, four sturdy, collapsible, legs and serrated pot supports allow both small and large pots to sit securely. Thanks to our new construction with a horizontal burner, we've succeeded in making the stove 30% lower compared to similar stoves of this type. Minimal weight and packing size. The stove is available in Gravity and Gravity MF models.

Stockholm Archipelago, Sweden.

PRIMUS Gravity™ MF

Stable stove for all temperatures.

This stove can handle extreme conditions and all temperatures, and runs on gasoline/petrol and kerosene. Thanks to the location of our preheating coil, preheating is even faster. An ErgoPump™, multi-tool, and windscreen are included with the Gravity MF.

Gravity™ MF 328084		❄️

328084: With ErgoPump, multi-tool and windscreen 328085: With ErgoPump, multi-tool, windscreen and 0.6 l fuel bottle			

PRIMUS Gravity™

Stable and simple LP gas stove.

For those who want a small, stable stove and who appreciate the simplicity of using LP gas. Thanks to our preheating coil, the stove can even be used at low temperatures. Gravity has a built-in piezo igniter and comes with a windscreen.

Gravity™ 327983

PRIMUS MicronStove™

Extremely lightweight with built-in piezo igniter.

This is definitely the ultimate lightweight stove! It's so small that it even fits in your shirt-pocket! With collapsible pot supports and the patented built-in lighting system, EasyTrigger™, you get minimum packing size yet maximum durability. Though small, the MicronStove remains powerful thanks to a unique wind-resistant burner. Moreover, the burner spreads the flame broadly for more even heat distribution and faster cooking.

Innovative!

PRIMUS TechnoTrail™

Compact and practical outdoor stove.

This is an innovative outdoor stove with a piezo igniter. An extremely compact and practical stove with gripping pot supports that keep pots in place even on uneven surfaces. The pot supports can be folded to the side, making the stove a small, compact unit. A metal cap protects the piezo igniter and valve from damage.

TechnoTrail™ 327083		☀

Gotland, Sweden.

Trust me!

PRIMUS ClassicTrail™

A robust classic.

ClassicTrail is a simple, durable and classic outdoor stove for those who wish to enjoy good food in the great outdoors. A robust design and a great value. The crosswise pot support acts as a built-in windscreen that makes cooking both fast and reliable. If you don't want to think about matches, you can equip your ClassicTrail with a practical piezo igniter.

PRIMUS MicronLantern™

The lantern of the future.

The Micron family is growing! The MicronLantern is a compact, lightweight and durable lantern that provides light and warmth when you need small dimensions, low weight and durability. Manufactured with a durable, rustproof mesh net instead of glass. The Easy Trigger™ ignition system allows for quick and easy lighting. The patented burner ensures that the lantern is virtually silent and uses little LP gas. The variable light output is adjustable up to 70 W.

**PRIMUS Classic Set**

Aluminium cookware with two internally graded saucepans (1.7 and 2.1 l), plus a frying pan and pot gripper. Comes in a practical net stuff sack.

Dimensions: Ø 202 x 97 mm • 7.9" x 3.8". Weight: 514 g • 18.1 oz.

Part number: 732340

**PRIMUS Classic Family Set**

Aluminium cookware with three internally graded saucepans (1.7, 2.1, and 2.9 l) plus a frying pan that doubles as a pot cover, and a pot gripper. Delivered in a practical net stuff sack.

Dimensions: Ø 202 x 121 mm • 7.9" x 4.8". Weight: 870 g • 30.7 oz.

Part number: 732680

**PRIMUS Classic Mini Set**

Aluminium cookware with one internally graded 1.4 l saucepan plus a frying pan that doubles as a pot cover, and a pot gripper. Delivered in a practical net stuff sack.

Dimensions: Ø 202 x 77 mm • 7.9" x 3". Weight: 340 g • 12 oz.

Part number: 732690

**PRIMUS Super Gourmet Set**

Practical stainless steel cookware with two internally graded saucepans (1.7 and 2.1 l), a frying pan with a foldable handle and a pot gripper. Comes in a practical net stuff sack.

Dimensions: Ø 217 x 109 mm • 8.5" x 4.3". Weight: 889 g • 31.4 oz.

Part number: 732290

**PRIMUS Gourmet Set**

Stainless steel cookware with two internally graded saucepans (1.7 and 2.1 l), lid and pot gripper. Comes in a practical net stuff sack.

Dimensions: Ø 186 x 109 mm • 7.3" x 4.3". Weight: 622 g • 21.9 oz.

Part number: 732300

**PRIMUS Gourmet De Luxe Set**

An outdoor chef's dream – stainless steel cookware with three internally graded saucepans (1.7, 2.1, and 2.9 l), a frying pan with a foldable handle and pot gripper. Delivered in a practical net stuff sack.

Dimensions: Ø 210 x 135 mm • 8.3" x 5.3". Weight: 1400 g • 49.4 oz.

Part number: 732700

PRIMUS Gourmet II Set

Stainless steel cookware with two internally graded saucepans (1.7 and 2.1 l), a pot gripper and a frying pan with an aluminium bottom for best heat distribution that doubles as a pot cover. Delivered in a practical net stuff sack.

Dimensions:

Ø 200 x 93 mm • 7.9" x 3.6".

Weight: 870 g • 30.1 oz.

Part number: 732670

**PRIMUS Gourmet Mini Set**

Stainless steel cookware with one internally graded 1.4 l saucepan, a frying pan that doubles as a pot cover, and a pot gripper. Delivered in a practical net stuff sack.

Dimensions: Ø 200 x 72 mm • 7.9" x 2.8".

Weight: 605 g • 21.3 oz.

Part number: 732660

**PRIMUS Gourmet Saucepan 2.9 l**

The best saucepan for large groups! Made of polished high-quality 18/8 stainless steel with folding handle and lid. Comes in a practical net stuff sack.

Dimensions:

Ø 212 x 137 mm • 8.3" x 5.4".

Weight: 493 g • 17.4 oz.

Part number: 732310

**PRIMUS Gourmet Frying Pan**

Made of 18/8 stainless steel for long life and easy cleaning. The frying pan's base is made of an aluminium plate sandwiched in between two layers of steel for even heat distribution and rigidity. Folding handle. Comes in a practical net stuff sack.

Dimensions:

Ø 150 (base) / 217 (top) x 65 mm • 5.9" (base) / 8.5" (top) x 2.6".

Weight: 393 g • 13.9 oz.

Part number: 732320

**PRIMUS Solo Kit**

Lightweight stainless steel saucepan kit for the lone hiker who wants to pack with care. Both the 1.3 l saucepan and non-stick frying pan have foldable handles. The saucepan fits a 2207 LP gas cartridge with either a Micron 3213 or TechnoTrail 3270 stove. Comes in a practical net stuff sack.

Dimensions:

Ø 130 x 137 mm • 5.1" x 5.4".

Weight: 388 g • 13.7 oz.

Part number: 721030

LITECH Cooking Set

Ultra light cooking set made of hard-anodised aluminium with non-stick surface. The set consists of two pots, a lid and a separate pot gripper. Comes in a practical net stuff sack. Dimensions:

1.7 l: Ø 170 x 75 mm • 6.7" x 2.9".

2.1 l: Ø 180 x 95 mm • 7.1" x 3.7".

Weight: 555 g • 19.6 oz.

Part number: 731690

LITECH Trek Kettle

Ultra light saucepan made of hard-anodised aluminium for greater durability and easier cleaning. Folding handle, room for one 2207 LP gas cartridge. Comes in a practical net stuff sack. Volume 1 l.

Dimensions: Ø 110 x 100 mm •

4.3" x 3.9". Weight: 216 g • 7.6 oz.

Part number: 731720

LITECH Coffee/Tea Kettle

Extremely lightweight coffee/tea kettle made of hard-anodised aluminium. Folding handle. Comes in a practical net stuff sack.

Volume 0.9 l.

Dimensions: Ø 153 x 55 mm • 6" x 2.2".

Weight: 150 g • 5.3 oz.

Part number: 731700

LITECH Frying Pan

Extremely lightweight frying pan made of hard-anodised aluminium with non-stick surface. Folding handle. Comes in a practical net stuff sack.

Dimensions: Ø 165 (base) / 220 (top) x 50 mm • 6.5" (base) / 8.7" (top) x 2".

Weight: 268 g • 9.4 oz.

Part number: 731710

PRIMUS Field Cutlery Kit

Spoon, knife and fork of high-quality 18/8 stainless steel. The cutlery is held together by a locking clasp.

Dimensions: 168 x 35 mm • 6.6" x 1.4".

Weight: 97 g • 3.4 oz.

Part number: 730830

PRIMUS Titanium Fork and Spoon Kit

Ultra light kit with a titanium fork and spoon for the most weight-conscious traveller. The cutlery is held together by a locking clasp.

Dimensions: 168 x 35 mm • 6.6" x 1.4".

Weight: 31 g • 1.1 oz.

Part number: 730840

PRIMUS Lightweight Cutlery

Fork, knife, and spoon in a durable PC-plastic.

Light and easy to wash.

Dimensions: 227 x 45 mm • 8.9" x 1.8".

Weight: 40 g • 1.4 oz.

Part number: 732770

**PRIMUS 4 Season Mug**

Available in three different sizes that cover most needs. A durable, double-walled mug in polished high-quality 18/8 stainless steel that keeps your drink warm or cold in all seasons.

Part number:

732250

Dimensions: Ø 71 x 82 mm • 2.8" x 3.2".

Volume: 0.25 l. Weight: 143 g • 5 oz.

732260

Dimensions: Ø 80 x 95 mm • 3.1" x 3.7".

Volume: 0.35 l. Weight: 181 g • 6.4 oz.

732270

Dimensions: Ø 80 x 115 mm • 3.1" x 4.5".

Volume: 0.45 l. Weight: 206 g • 7.3 oz.

**PRIMUS Travel Mug 0.50 l**

Double-walled mug in polished high-quality 18/8 stainless steel for the best possible thermal efficiency. The lid has a built-in, closable opening for drinking. Keeps your drink warm or cold, and fits most kinds of mug holders.

Dimensions: Ø 91 x 170 mm • 3.6" x 6.7".

Weight: 305 g • 10.7 oz.

Part number: 732280

**PRIMUS C&H Vacuum Bottle**

Double-walled vacuum bottle in brushed 18/8 stainless steel with "Quick-Stop" seal and combined lid and mug. Offers excellent isolation and low weight without sacrificing durability.

Part number:

732350 Dimensions: Ø 68 x 194 mm •

2.6" x 7.6". Volume: 0.35 l.

Weight: 313 g • 11 oz.

732360 Dimensions: Ø 68 x 260 mm

• 2.6" x 10.2". Volume: 0.50 l.

Weight: 359 g • 12.7 oz.

732370 Dimensions: Ø 78 x 297 mm

• 3.1" x 11.7". Volume: 0.75 l.

Weight: 545 g • 19.2 oz.

732380 Dimensions: Ø 86 x 304 mm

• 3.4" x 12". Volume: 1.0 l.

Weight: 583 g • 20.6 oz.

**PRIMUS Multi-tool**

For OmniFuel. Also suitable for MultiFuel and VariFuel. With built-in cleaning pin.

Dimensions: 80 x 17 x 15 mm • 3.1" x 0.7"

x 0.6". Weight: 42 g • 1.5 oz.

Part number: 731860

PRIMUS C&H Food Vacuum Bottle

Double wall vacuum bottle in brushed 18/8 stainless steel with "Quick Stop" closure and large opening to easily access bottle contents. The cover doubles as a mug and comes with an extra mug inside. Two sizes, 1.2 and 1.5 l. Good insulating qualities and low weight without sacrificing durability.

Part number:

732780 Dimensions: Ø 108 x 271 mm • 4.2" x 10.7". Volume: 1.2 l.

Weight: 850 g • 30 oz.

732790 Dimensions: Ø 108 x 334 mm • 4.2" x 13.1". Volume: 1.5 l.

Weight: 970 g • 34.2 oz.

PRIMUS Water Bottle

Traditional water bottle in extruded aluminium. Available in 0.6 and 1.0 l sizes. Internally surface-treated according to food standards to not affect taste. The bottle comes with a varnished exterior and an open-close sport cork.

Part number:

732200 Dimensions: Ø 72 x 210 mm • 2.8" x 8.3". Volume: 0.6 l.

Weight: 142 g • 5 oz.

732210 Dimensions: Ø 80 x 265 mm • 3.1" x 10.4". Volume: 1.0 l.

Weight: 175 g • 6.2 oz.

PRIMUS Outdoor Bottle

Bottle in PC-plastic for best conceivable hygiene. Two sizes, 0.6 and 1.0 l. The bottles have a large opening, making them easy to fill and wash. They are also supplied with our "hydration system", consisting of a smaller opening at the middle with a detachable opening/closing drink cork that even fits most PET bottles.

Part number:

732800 Dimensions: Ø 70 x 202 mm • 2.7" x 7.9". Volume: 0.6 l.

Weight: 98 g • 3.4 oz.

732810 Dimensions: Ø 95 x 227 mm • 3.7" x 8.9". Volume: 1.0 l.

Weight: 175 g • 6.2 oz.

PRIMUS Toaster

Collapsible toaster in stainless steel to make outdoor life a bit more civilized. The mesh net distributes the heat over the bread slices. Should only be used with an LP gas stove.

Dimensions: 140 x 167 x 15 mm • 5.5" x 6.6" x 0.6" (collapsed).

Weight: 158 g • 5.6 oz.

Part number: 720660

PRIMUS Foot Rest

Recommended to increase stability for stoves that screw directly onto the LP gas cartridge, especially when using large pots or cooking on uneven surfaces. The footrest attaches to the base of the cartridge. Also fits other brand cartridges.

Dimensions:

27 x 140 x 37 mm • 1.1" x 5.5" x 1.5".

Weight: 22 g • 0.8 oz.

Part number: 721170

**PRIMUS Windscreen and Heat Reflector Set**

For OmniFuel, MultiFuel, Gravity, VariFuel and EasyFuel stoves. Increases heat output and shortens cooking time. The aluminium heat reflector focuses heat on the pot and preheating coil.

Dimensions: Windscreen 750 x 150 mm • 29.5" x 5.9". Heat Reflector Ø 250 mm • 9.8". Weight: 87 g • 3.1 oz.

Part number: 721720

**PRIMUS Suspension Kit**

For those who want to take a break on the mountainside or cook on board a boat. The wires hold the stove and LP gas cartridge or fuel bottle together, but are separated at the top for easier access to pots and pans. Fits all of our stoves with three pot supports.

Dimensions: 170 x 170 mm • 6.7" x 6.7".

Weight: 50 g • 1.8 oz.

Part number: 721220

**PRIMUS Firesteel**

The optimal way of starting a fire or lighting your stove in all weather conditions. Water resistant – works in rain and snow. Durable – can be used thousands of times. Effective – the sparks are about 3000°C.

Part number:

732390 - Medium.

Dimensions:

Ø 24 x 78 mm • 0.9" x 3.1".

Weight: 26 g • 0.9 oz.

732400 - Large.

Dimensions:

Ø 24 x 100 mm • 0.9" x 3.9".

Weight: 50 g • 1.8 oz.

PRIMUS ErgoPump™

Fuel pump for OmniFuel, MultiFuel, VariFuel, and Gravity MF. Made of aluminium and composite materials, making it lightweight and tough. Can be used with most fuel bottles with standard screw threading. Pump 732230 fits OmniFuel and MultiFuel (even old fuel line connections) and pump 732240 fits Gravity MF och VariFuel (not the older fuel line connection).

Part number:

732230 Dimensions: 66 x 41 x 179 mm • 2.6" x 1.6" x 7". Weight: 102 g • 3.6 oz.

732240 Dimensions: 61 x 41 x 179 mm • 2.4" x 1.6" x 7". Weight: 105 g • 3.7 oz.

PRIMUS Fuel Bottle

BottleUltra light fuel bottle of seamless extruded aluminium and lacquered inside to provide the bottle better protection. The connection threads are standard and suitable for OmniFuel, MultiFuel, Gravity MF and VariFuel as well as most common pump stoves that burn liquid fuels.

Part number:

721950 – 0,6 l.

Dimensions: Ø 74 x 202 mm • 2.9" x 7.9".
Volume: 530 ml. Weight: 118 g • 4.2 oz.

721960 – 1,0 l.

Dimensions: Ø 80 x 260 mm • 3.1" x 10.2".
Volume: 850 ml. Weight: 166 g • 5.8 oz.

732530 – 1.5 l.

Dimensions: Ø 88 x 310 mm • 3.5" x 12.2".
Volume: 1335 ml. Weight: 212 g • 7.5 oz.

PRIMUS PowerFuel

Contains 2.5 litres of naphtha (chemically clean gasoline/petrol) with corrosion protection added. Dimensions: 150 x 108 x 225 mm • 5.9" x 4.2" x 8.8". Volume: 2.5 l.
Weight (gross): 1880 g • 66.3 oz.

Part number: 220993

PRIMUS PowerGas

Contains 100, 220 g or 450 g of Primus' new gas mixture, 4 Seasons. The largest 2202 cartridge contains the equivalence of approximately 1 l of methylated spirits, sufficient to boil about 30 l of water. The cartridges are equipped with self-sealing, safety valves and internationally standard screw threads.

Part number:

220693 - 100 g.

Dimensions: Ø 90 x 67 mm • 3.5" x 2.6".
Weight (gross): 198 g • 7 oz.

220793 – 220 g.

Dimensions: Ø 108 x 85 mm • 4.2" x 3.3".
Weight (gross): 390 g • 13.7 oz.

220293 – 450 g.

Dimensions: Ø 108 x 137 mm • 4.2" x 5.4".
Weight (gross): 645 g • 22.7 oz.

Our different stoves.

Expedition stoves. These stoves are developed together with some of the foremost mountain climbers to be lightweight and reliable, even under the most demanding weather conditions. Designed to give you maximum flexibility in the choice of fuel, the stoves have gripping pot supports that keep the pots in place on uneven surfaces.

Lightweight stoves. These are lightweight, compact and powerful stoves, made for those times when every gram and millimetre counts.

Touring stoves. These stoves are for those of you who hike or camp. More basic stoves for those who primarily want to enjoy good food in the great outdoors over a weekend or a week's trip. Our touring stoves have lower prices than our other stoves, but the same uncompromising design and quality.

Choosing the right fuel.

LP gas is practical, clean and easy to use and works excellently, even at high altitudes. Combustion is free of odour and soot. No pumping or preheating is needed. The closed Primus system also lets you avoid fuel leakage or dangerous fumes. The only by-products of burning LP gas are water vapour and carbon dioxide, the same substances you exhale! One drawback with LP gas is that you cannot take it with you on the plane. Another is that disposable LP cartridges do not work as well the colder it gets. Primus' LP gas mixture consists of 60% butane, 25% propane and 15% isobutane.

Gasoline/petrol is available everywhere there are cars and also works well in cold weather. For our stoves we recommend chemically pure gasoline/petrol, or white gas/petrol, which is cleaner than standard gasoline/petrol and can be purchased at paint shops or outdoor stores. You can also use standard automotive gasoline/petrol, but keep in mind that it contains harmful substances. Gasoline/petrol is a highly flammable fuel and requires pumping and preheating while it also does not burn soot-free.

Kerosene is easy to get a hold of and has roughly the same characteristics as gasoline/petrol. Just like gasoline/petrol, kerosene requires pumping and preheating. The disadvantage of kerosene is that it is not as clean as LP gas or chemically pure gasoline/petrol. This means that more stove maintenance is required. Kerosene is also not free of odour and produces a great deal of soot when burning.
